

Share Confidential Data in a Leak-proof Collaborative Environment

How **Secure** Are Your Shared Folders?

Shared folders in file server and the Cloud help us to work with co-workers and contractors more efficiently. However, there is a huge risk of confidential data leakage if the shared folders are not managed by following data security perspectives.

- User's file related activities should be monitored easily.
- User rights for each folder should be managed.
- Data leakage prevention should be activated even when some data must be transported.

Highlights

- Copy-protected editing: copy protection, screen capture/printing/network transfer prevention
- Audit and track user's all file activities: create, read, write, copy, delete, rename, etc.
- Seamless integration with Windows Active Directory
- Compatible with MS SharePoint, Cloud servers, DFS and WebDAV
- Encrypted file export to SECUDRIVE manageable USBs

Filtered Logging
& Monitoring

Encrypted File Transfer to
Manageable Secure USBs

Key Features

- User identification and authentication
- Application control
- Prevention of file copying and save-as functions
- Clipboard copy protection
- Printing prevention and watermark printing
- Spool file encryption when printing
- Screen capture protection
- Detailed event logs
- Audited copy protocol
- Secure audited copy protocol: encrypted file im/export
- Cloud server compatibility

Specification

- OS for SECUDRIVE File Server
 - Manager: Windows Server 2012 (32-bit/64-bit)
 - PC Client: Windows 10, 8.1, 8, 7 (32-bit/64-bit)
- Cloud server compatibility
can be installed on MS Azure, Amazon EC2, Rackspace Managed Cloud & more..
- Compatible copy protected applications:
 - SECUDRIVE File Server Office Edition
Documentation: MS Word, Excel, PowerPoint, Access, OpenOffice
Design: Adobe CS3+ Photoshop/Illustrator/Flash
Video Player: Windows Media Player
Text Editor: EditPlus, UltraEdit, Notepad
Zip: Win RAR, Alzip, 7-zip
 - SECUDRIVE File Server CAD Edition
All compatible copy protected applications of Office Edition
AutoDesk Products: AutoCAD, AutoCAD MAP 3D
Dassault Systems Products: CATIA, Solidworks
Siemens PLM Software: Unigraphics NX
GIS: ArcView, GIS, EPANET
etc.:OrCAD, P-CAD, Solid Edge ST, CAM350
