

Transport Confidential Data in a Leak-proof Manageable Device

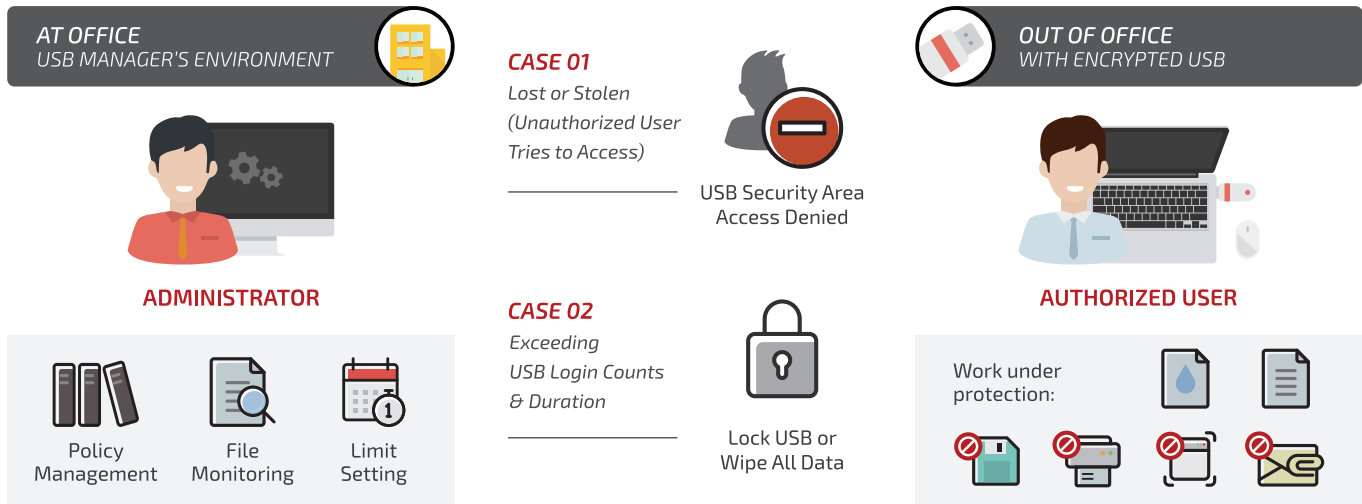

Enterprise Requires **Beyond** the Average USB

USB storage devices are commonly used in corporations because of their convenience and portability. However, it is also a fact that USB drives take a large part of confidential data leakage incidents. Therefore, the USB drives used in corporations should at least fulfill the following conditions.

- Strong hardware encryption
- Consolidated security policy management function
- Data leakage prevention from insider mistakes/malicious intent, and 3rd party mistakes

Highlights

- Password authentication and strong AES-256 H/W encryption module
- Copy-protected editing: copy protection, screen capture/printing/network transfer prevention
- Remote management, remote wipe when a device is lost or stolen
- Detailed event log for all the files on the USB
- Protection from malicious codes using Trend Micro USB Security™

Hardware Encryption

Copy-protected Editing

Remote Management & Monitoring

SECUDRIVE USB Basic

Key Features

- AES 256 bit crypto chip - hardware encrypted USB memory
- Complete data erasure after a set amount of consecutive incorrect password attempts
- USB auto lock after a certain idle time

Specification

- OS: Windows 10, 8.1, 8, 7 (32-bit/64-bit)
- Interface: USB 3.0, 2.0
- Capacity: 4GB, 8GB, 16GB, 32GB, 64GB
- Management: SECUDRIVE USB Management Server

SECUDRIVE USB Office/CAD

Key Features

- AES 256 bit crypto chip - hardware encrypted USB memory
- Complete data erasure after a set amount of consecutive incorrect password attempts
- Prevention of file copying and save-as functions
- Clipboard copy protection
- Print prevention and watermark printing
- Prevention of malicious codes
- Validity settings
- Detailed event logs

Specification

- OS: Windows 10, 8.1, 8, 7 (32-bit/64-bit)
- Interface: USB 3.0, 2.0
- Capacity: 4GB, 8GB, 16GB, 32GB, 64GB
- Management: SECUDRIVE USB Management Server
- Compatible copy protected applications:
 - USB Office
 - Documentation: MS Word, Excel, PowerPoint, Access, OpenOffice
 - Design: Adobe CS3+ Photoshop/Illustrator/Flash
 - Video Player: Windows Media Player
 - Text Editor: EditPlus, UltraEdit, Notepad
 - Zip: Win RAR, Alzip, 7-zip
 - USB CAD
 - All compatible copy protected applications of USB Office
 - AutoDesk Products: AutoCAD, AutoCAD MAP 3D
 - Dassault Systems Products: CATIA, Solidworks
 - Siemens PLM Software: Unigraphics NX
 - GIS: ArcView, GIS, EPANET
 - etc.:OrCAD, P-CAD, Solid Edge ST, CAM350

SECUDRIVE USB Management Server

Key Features

- Security policy management: Password policy, validity settings
- DRM policy management: Rights management for copy, print and screen capture
- USB management: Registration, initialization, log management, reset password, data recovery

Specification

- USB Management Server OS: Windows Server 2012 (32-bit/64-bit)
- PC Client OS: Windows 10, 8.1, 8, 7 (32-bit/64-bit)

Compatible USBs

- SECUDRIVE USB Basic+ V SD200, SD300
- SECUDRIVE USB Office+ V SD200, SD300
- SECUDRIVE USB CAD+ V SD200, SD300
